

GAS CAM 3

RECORDABLE

Our innovative live gas main camera system provides the highest quality inspection. It is a highly robust camera with LED illumination. The camera and its casing are made from Aerospace grade materials, making them very lightweight. *Memory flex* push rod cable technology provides a tougher defence against wear and tear. Increased fibre bonding improves resistance against snapping, whilst retaining its flexibility and low friction during surveys. HDD display screen provides “day light” visibility at all times.
