

GAS CAM 1

Our innovative live gas main camera system provides the highest quality inspection. It is a highly robust camera with LED illumination. The camera and its casing are made from Aerospace grade materials, making them very lightweight. The system comes complete with a 10 hour lithium battery pack. *Memory flex* push rod cable technology provides a tougher defence against wear and tear. Increased fibre bonding improves resistance against snapping, whilst retaining its flexibility and low friction during surveys. HDD display screen provides “day light” visibility at all times.

KEY FEATURES

- Plug and play CCTV System
- A-B tracing through the camera coil
- Live metallic launch system
- 35mm Camera - 3” to 6” Diameter mains
- 50mm Camera – 6” to 12” Diameter mains
- Lengths of up to 80 metres in one direction can be achieved
- All camera heads are pressure rated to 16 bar, therefore they are suitable for water ingress surveys.
- Sapphire camera lenses for ultimate durability and performance.

Control Unit	Camera (35mm)	Camera (50mm)	Battery Pack	Inspection Rod	Launch Head	Optional Extras
10.4" TFT LCD Panel	Stainless steel body	Aerospace grade aluminium body	12v 11Ah Lithium Ion	7.4mm Diameter push rod	Metallic – Vertical angle launch assembly, compatible for connection on WASK drilling base on metallic mains	
1024x768 Resolution	976x496 pixels @ 50Hz	976x496 Pixels @ 50Hz	12v Li-ion fast charger	Polypropylene outer coating		Meterage arm
Anti-reflective, sunlight readable screen	12x White LED illumination	18x White LED illumination	12v Socket	80mtr Length		Company logo embossed onto unit
110v-240v Power input	12x White pressurised to 16 bar	18x White pressurised to 16 bar	Water resistant case			Numerous colours for Pelli case
12v Power input		Self-levelling				Recordable option to store up to 1 TB. USB and SD card downloadable
