

GAS CAM 3

RECORDABLE

Our innovative live gas main camera system provides the highest quality inspection. It is a highly robust camera with LED illumination.

The camera and its casing are made from Aerospace grade materials, making them very lightweight.

Memory flex push rod cable technology provides a tougher defence against wear and tear. Increased fibre bonding improves resistance against snapping, whilst retaining its flexibility and low friction during surveys. HDD display screen provides “day light” visibility at all times. Lithium battery life (up to 10hrs) alleviates the need for generators of external power source.

KEY FEATURES

- Recordable CCTV footage
- Lithium battery pack up to 10 hrs
- Live metallic launch system
- 35mm Camera – 3” to 6” Diameter mains
- 50mm Camera – 6” to 12” Diameter mains
- Lengths of up to 120 metres in one direction can be achieved
- All camera heads are pressure rated to 16 bar, therefore they are suitable for water ingress surveys
- Sapphire camera lenses for ultimate durability & performance

Control Unit	Camera (35mm)	Camera (50mm)	Battery Pack	Inspection Rod	Launch Head	Optional extras
10.4" TFT LCD Panel	Stainless steel body	Aerospace grade aluminium body	12v 11Ah Lithium Ion	9mm Diameter push	Metallic - Vertical angle launch assembly, compatible for connection on WASK drilling base on metallic mains	Self-levelling
1024x768 Resolution	976x496 Pixels @ 50Hz	976x496 Pixels @ 50Hz	12v Li-ion fast charger	Polypropylene outer coating		Meterage arm
Anti-Reflective, sunlight readable screen	12x White LED Illumination	18x White LED Illumination	12v Socket	120 mtr Length		Company logo embossed onto unit
USB Outputs	12x White pressurised to 16 bar	18x White pressurised to 16 bar	Water resistant case	On-screen meterage unit		Numerous colours for Pelli case
16 page on screen text writer				Live A-B tracing (cat & genny not included)		
Waterproof keyboard						
110v-240v Power input						
12v Power input						
1TB Hard drive for recording
